Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5-10 and 13-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Zybko et al. Applicant's arguments have been considered but are not deemed persuasive. Applicant argues that the reference does not teach a seamless user surface or segmented cushion layer. However, the reference shows in Figure 4 a carpet tile having a seamless surface layer 70 and a segmented adhesive layer 10, 20, 30, 40, which may be considered a segmented cushion layer since it will provide shock absorption to a degree. Concerning the discussion of claim 13, the carpet tile shown in the reference is capable of being rolled into a roughly spiral configuration due to the inherent flexibility of carpet.

3. Claims 5-8, 13-16 and 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ackley. Applicant's arguments have been considered but are not deemed persuasive. The layer 24, i.e. the lower fabric layer in the reference's article may be considered a user surface and it is also seamless. The foam elements 16 and 18 may be considered a segmented cushion layer. Such a pad as disclosed in Figure 1 of the reference is inherently capable of being rolled into a roughly spiral configuration due to the layer 24 being a fabric and the foam layer(16 and 18) being segmented. The fact that the reference's article is intended to be used with the foam layer as the top layer does not structurally distinguish this article from the instantly claimed article.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 9, 11, 12 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ackley. Applicant's arguments have been considered but are not deemed persuasive. It appears that applicant does not agree that the materials set forth in claims 9, 11 and 12 are well known materials. These materials are clearly well known and are defined in any dictionary. For example, canvas is a type of fabric and closed cell foam is a type of foam.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
